

Field trial manager - Biotek Agriculture USA

1. OUR COMPANY

BIOTEK AAA with its worldwide divisions Biotek-Agriculture is a CRO supporting research, development and registration of crop protection products, fertilizers, biologicals and seeds within the major agricultural regions. For more information, please have a look at our website <https://biotek-aaa.com/>.

2. JOB DESCRIPTION

We are looking for a highly motivated and experienced Field Trial Manager to oversee the planning, execution, and reporting of agricultural field trials conducted in our subsidiary in Florida.

| | |
|---------------|---------------------|
| Job title | Field Trial Manager |
| Job location | Oviedo, Florida |
| Contract type | Permanent contract |

3. MISSIONS

- Plan, manage, and supervise agricultural efficacy and residue field trials in accordance with GLP and GEP standards, client protocols, and internal procedures.
- Ensure proper documentation and data integrity throughout the trial process.
- Analyze trial data and prepare technical reports in compliance with study requirements.
- Manage trial teams and seasonal technicians during field activities.
- Identify local service providers and maintain field infrastructure as needed.

4. QUALIFICATIONS

- Degree in Agronomy, Agricultural Engineering, or related field.
- Proven experience in field experimentation (GEP preferred) and agricultural data management.
- Strong organizational and planning skills; ability to manage multiple projects simultaneously.
- Excellent communication and interpersonal skills.
- Proficiency in Microsoft Office Suite and field trial software (e.g., ARM or similar).
